Attention: Abbot Stevenson

Dear Ms. Abbot Stevenson:

We are in receipt of the Ohio EPA letter dated June 21st, 2008 concerning the Discharge Monitoring Report submitted on June 20th 2008 from American Energy Corporation. Please find listed below our proposed corrections to outfall 17.

- **Outfall 017 (Nitrogen, Ammonia, (NH₃))** - We will increase the cycle times to the aeration system which will provide additional oxygen to the system. We believe this correction will bring the system back into compliance. We will continue to monitor the system and make any additional changes necessary.

If you have any questions or need additional information please feel free to contact me at your convenience.

Sincerely,

Fred M. Blumling
Project Engineer
